

Advanced Automotive

Program Aim

The purpose of the Advanced Automotive Program is to promote the education and exploration of automotive careers among high school students by providing the technical skills and knowledge necessary to make career decisions in this field.

Program Components

This program is a collaborative effort between four area high schools and Hibbing Community College. This combined effort helps to build a more skilled, educated workforce through programs like this.

2009-10 School Year Courses

Course	Credit*	College Partner	Participating High School
Small Engines	high school	Hibbing Community College	Grand Rapids HS
Auto I & II	high school	Hibbing Community College	Nashwauk-Keewatin HS
Auto Tech	high school	Hibbing Community College	Hibbing HS
Power Mechanics	high school	Hibbing Community College	Chisholm HS

* articulated college credit possible

Listed above are several examples of careers you can pursue through ALI courses. If you are interested in this program, contact your high school counselor or principal and say you are interested in the ALI Advanced Automotive classes through Hibbing Community College.

For more information about Hibbing Community College ALI courses contact Mike Raich at michaelraich@hibbing.edu * 218-262-6702

Applied Learning Institute (ALI) was formed in 2006 to enhance technical education in northeast Minnesota by providing experiential learning that combines hands-on training and technology. The result will be highly qualified, knowledgeable workers who are equipped with the technical and problem-solving skills needed by employers everywhere. Having completed the pilot phase, ALI entered its first full-implementation year during the 2009-10 school year. ALI is a partnership connecting 17 northeast Minnesota school districts and the five colleges of the Northeast Higher Education District (NHED), a member of the Minnesota State Colleges and Universities System (MnSCU).
